working machinery is absolutely necessary. A gold nugget worth ninety dollars was taken from one of these placers. A quartz vein thirty feet wide crosses this property. It may be the one from which the gold came, but has not been prospected. Price for a half interest in the mining right in this very large tract of mineral land is only \$10,000, and \$5,000 of this to be used for development purposes, prospecting for the vein formation of other companies, &c. All of this money, with interest at 6 per cent., to be paid back from the first carnings of the mine. The placers, with inexpensive machinery, are sure divi-dend, payers. This tract of mineral land, when developed, will undoubtedly pay big, dividends on many million dollars. Only 12 hours from New York city. C. A. PARSONS, South Dudswell.
